

## PRODUCT INFO

### FORK-PACK ADAPTER 45° TO 30°

Adapter to adjust the mounting angle of the Fork-Pack

Application examples:

### SPECIFICATIONS:

- + Mounting adapter shifts the angle of the Fork-Pack bracket
- + Shifts the braze-on from 45 degrees to 30 degrees
- + Adapter use prevents the bags from contacting the front wheel or the spokes
- + By installing the two adapters, the distance between the Fork-Pack and the front wheel can be increased

**Contents:** Fork-Pack Adapter 45° to 30°

**Optional available:** QLS Mounting-Set Fork-Pack, Fork-Pack, Fork-Pack Plus
